

Bid Document for “Thermal Insulation for SA & RA Ducting with supply of material for HVAC system at ITER- India lab, IPR Campus ”

1) INTRODUCTION:

225 TR HVAC system is installed and under operation at roof top of ITER-India (II) Lab which has 11 AHUs with thermocol insulated ducting. Due to ageing effect and exposure to weather, the insulation is damaged from various places and needs to be repaired to avoid further insulation damage and duct mechanical damage.
