TASK ORDER TEMPLATE

The template of the Task Order is a reminder of the minimum information to be mentioned in the contractual document to be signed between the sending Entity and the Contractor and/or its Partner and/or its local Subsidiary.

Each Domestic Agency may have a number of different provisions to be agreed with the Contractor and mentioned either in an implementing Agreement or on a case by case in the Task Order itself.

The signed Task Order may therefore be adapted to the specific needs and be more complete than the present template.

Q
