## **PRIOR INDICATIVE NOTICE for OPEN TENDER**

**Tender title: Commissioning and daily inspections of scaffoldings structures**

**Tender reference: IO/20/OT/70000574/SMA**

Once the installation or modifications of the scaffolding structures on ITER Site are completed, they need to be inspected as required by the French labour code and other applicable laws.

The present tender process is aiming at procuring the services, by means of a Framework Contract, for a company that can supply up to two experts in this field, to be located on the ITER Site, to perform the receiving inspections (Commissioning or Re-Commissioning) and the “daily” inspections of scaffoldings structures for the whole ITER work site.

The resulting framework services contract will be an initial firm period of 3 years, with two optional extensions of 1 year each.

At contract signature one expert is envisaged to start work in August 2020 with a ramp up to 2 experts early in 2021.

The Contractor shall ensure that the supplied experts will perform the inspections, as soon as the installation of the structures is completed, or following a specific request and will be declare the scaffolding is “fit for purpose” (usable) by the ITER Works Contractors.

The experts shall also perform the daily inspections of the scaffolding to be used by IO personnel.

The Experts shall have at least 10 years of experience in similar projects and shall be trained and certified from a recognised and licensed institution (SFECE, CNAMTS or equivalent) declaring that he/she is authorized to commission scaffolds.
